

Please describe what your feelings or thoughts are on the tutorials up to this point.

→ pretty helpful to demonstrate what kind of thinking/analysis is required for course

What worked for you? What didn't?

→ going through questions of appropriate length
↳ when too long - just creates more confusion

Have the tutorials helped you with completing the assignment? Why or why not?

Yes, because it helps with how to analyze data from studies - I wish class material (~~was~~ ~~more~~) did as well (more so - a bit too complex & fast in class lectures)

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- They are a little rushed Sometimes - can be overwhelming.
- Sometimes I wonder if I'm even developing useful skills to help me on exam.
- fun, positive environment.

What worked for you? What didn't?

- better when we do a little group work & more take up in class.

Have the tutorials helped you with completing the assignment? Why or why not?

I think so, we'll see what my mark is.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

Great. Very helpful. I really appreciate that our TA is so willing to accommodate our needs by always asking us what we would like done differently. Thank you!
What worked for you? What didn't?
Going through the questions together as a class is very helpful.

Have the tutorials helped you with completing the assignment? Why or why not?

Yes it has. It gave me a better idea of how to approach the assignments and what the expectations are in terms of answers.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

Good prep for 1st assignment but I always feel confused at some point usually more clarification is needed.

What worked for you? What didn't?

whole class discussion works - and not too too fast (I know time is limited)

Have the tutorials helped you with completing the assignment? Why or why not?

YES. I find this class very vague, especially the lectures, so the tutorials are very helpful. The point of the class is not very clear but tutorials provide some clarity.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

They've been getting progressively better / more productive. The 20 min group work + class coming together is a good format.

What worked for you? What didn't?

I find working through answers as a class to be most helpful. Definitely makes sense for us to look through assignments before coming since we only have an hour. Suggest increasing tutorial to 1.5 hrs instead. Please keep

Have the tutorials helped you with completing the assignment? Why or why not?

posting PPT slides on blackboard :)

Yes, helped me know the style of answers to craft, and took away some of the intimidation of assignment.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- Going over practice assignments as 1 large group seems more beneficial
- Too short (but I don't want a longer tutorial :))

What worked for you? What didn't?

- I can't read an assignment in a group in 20 mins & figure out what the data is telling me. If the expectation was that students are expected to read & understand the assignment ahead of time, then I think time would be used more effectively

Have the tutorials helped you with completing the assignment? Why or why not?

Yes, to know what is expected in assignments.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- Not as good as it could be.

What worked for you? What didn't?

- I liked shorter tutorials that could be completed in tutorial (tutorial #5)

Have the tutorials helped you with completing the assignment? Why or why not?

- A little bit - would like to be able to work through ~~as~~ tutorials in class so get better at process.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

I think the tutorials ~~be helpful~~ have become more helpful as we have adjusted them. It runs better when we come to tutorial prepared. because we can cover more of the complex questions + spend less time on basic stuff.

What worked for you? What didn't?

I think they are too short, we need more time.

Mix of groups + class discussion helpful.

Have the tutorials helped you with completing the assignment? Why or why not?

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- feel a bit rushed
- hard to understand complexities of study within an hour

What worked for you? What didn't?

- like general Concept maps
- sometimes we don't have enough background info

Have the tutorials helped you with completing the assignment? Why or why not?

- yes, I feel more comfortable in interpreting tables & figures.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

I enjoy them.

What worked for you? What didn't?

The diagrams don't work well for me. Perhaps it would be instructive to show the process of assembling a diagram (e.g., treatment/control group at top, primary measure at the side).

Have the tutorials helped you with completing the assignment? Why or why not?

A little. I'm not sure how helpful it is for those who do not practice outside the class.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

I am slowly but surely getting it.

What worked for you? What didn't?

A little bit of group work is ok - but as a whole class going over thought processes is more efficient - what Q's you need to ask yourself.

Have the tutorials helped you with completing the assignment? Why or why not?

yes - the charts were helpful.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

Good! Fun to go through assignments and find out what people are looking for!

What worked for you? What didn't?

Group discussions to get a feel of other people's thoughts & opinions.

Have the tutorials helped you with completing the assignment? Why or why not?

Yes, good to know what wording / layout / style examiner is looking for.

Reminded me to stick to the point & not get too complicated.

Any feedback is greatly appreciated!!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- good for helping do assignments
- sometimes hard to follow - go through too quick.

What worked for you? What didn't?

- going through as a class is good
- sometimes hard to get focused + stuff done in groups.

Have the tutorials helped you with completing the assignment? Why or why not?

- yes: helped with the 'type' of answers you're looking for
- still difficult to know how much info to provide in question

Any feedback is greatly appreciated!!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

I liked today's class where we worked in groups & then collaborated as a group.

What worked for you? What didn't?

Sometimes tutorial seems a bit disorganized and sometimes the studies are more confusing than helpful (like today's study where we were not provided a background)

Have the tutorials helped you with completing the assignment? Why or why not?

Yes, they help me practice reading & understanding data

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- better when we go through together after a little bit of group work.

What worked for you? What didn't?

- going together as a group and seeing the diagrams & flow charts.

Have the tutorials helped you with completing the assignment? Why or why not?

- they helped with framing how we should be thinking and drawing the diagram.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

- maybe a few pointers, or thoughts to guide us before we break up into smaller groups

What worked for you? What didn't?

- Like the small group then regrouping and debriefing

Have the tutorials helped you with completing the assignment? Why or why not?

yes, got me familiar w. thought process and structure of Qs.

Any feedback is greatly appreciated!!! Thank you!!

Please describe what your feelings or thoughts are on the tutorials up to this point.

I'm tired, I need coffee. Bring me coffee.

What worked for you? What didn't?

Discussing the study worked. The diagrams/figures need improvement.

Have the tutorials helped you with completing the assignment? Why or why not?

They have helped because Luke is super smart.

Any feedback is greatly appreciated!!! Thank you!!
